

Stream Deck Plugin Installation

If you use an Elgato Stream Deck, the iReporter Stream Deck plugin adds live button colour updates and status displays to your Stream Deck keys.

Install from within iReporter SimHub module

1. Open iReporter settings in SimHub
2. Set **Input Mode** to **Stream Deck** or **iReporter Button Box & Stream Deck**
3. Click the **Install Stream Deck Plugin** button - iReporter downloads and installs the plugin automatically
4. When prompted, click **Yes** to restart Stream Deck
